## OPERA QUEEN OF INDIA

**Hritisha Rewadia, in a freewheeling chat with City First, opened up about her journey as Opera singer, a rarity in India!**

Without any doubt, it is safe to say that the desert state is filled with immense talent. To prove this right, Hritisha Rewadia from the Pink City recently won the title of the 'Opera Queen of India', and it is definitely a very big achievement for Rajasthan as a whole. In an exclusive interview with City First, Hritisha opened up about her journey and what she plans to do in the future. Talking about the title she recently received, Hritisha mentioned, "I feel over-

me by the respected and honourable personalities because my dream of bringing opera as a mainstream singing culture in India is becoming true. In 2020 I was welcomed by many opera shows conducted online due to Covid in USA & UK, and people and other celebrities there honoured me with the title of 'Opera Queen of India'."

"In school, I never thought of becoming a singer instead I was pursuing doctorate career but suddenly I changed my plans by discussing this field with family and planned to move forward with singing as I always stood 1st in inter-school and inter-house singing competitions. Then I met Shaikhali Saxena the Founder of Angel's Music Academy and decided to learn music at her Acad-

duced & taught me opera culture and helped me through my career in music. We both became like sisters and in fact consider her as a family member," she added. On asking about who is her role model, Hritisha said, "My role model and my inspiration for my singing comes from my mother, Darshana Rewadia, and on her name only I've put my stage name as 'Hritisha Darshana Rewadia'."

Going further, Hritisha's goal is to invent some things in music that have never been discovered, and become a Musicolo-

## Rajasthan's First Dolby Atmos Studio

### **FUTURE OF MUSIC IS HERE**

Rajasthan's First Dolby Atmos Studio & Rajasthan's first dolby recording studio & lab is now open at Angel's Music Academy. Now our sound engineering students can learn & explore the dolby atmos technology.

### **What is Dolby Atmos?**

*Dolby Atmos* expands the creative palette for artists and creators. Instruments and vocals can be isolated and articulated with incredible clarity.

It expands on existing surround sound systems by adding height channels, allowing sounds to be interpreted as three-dimensional objects.

*Angel's is one of the best institutes in Jaipur for music training of any kind - vocal, instrumental, production, sound engineering, and more. I learned Western Classical, Western Rock and Pop and Music Production from here and had a great experience. They constantly keep evolving and improving their curriculum and the faculties are very knowledgeable too. 100% recommend for a growing budding musician.*
